

Bio

Angela Copeland, M.Ed., CPHIMS-CA

Angela brings more than 17 years of management experience in healthcare informatics to her role as the Director, Data Governance at Cancer Care Ontario (CCO). She is responsible for establishing, leading, and maintaining an enterprise-wide integrated governance framework that incorporates policy and procedure setting, risk identification and migration, data stewardship, enterprise data compliance, quality and privacy/legal applications of data management. Angela is an instructor of “Health Information Systems Management” at Ryerson University. Previously, Angela was the Chief Information Officer & Privacy Officer at Runnymede Healthcare Centre and the Director, Information Technology at the Centre for Addiction and Mental Health (CAMH). Angela has a Masters of Education (M.Ed.) with a focus in Adult Education and is a Certified Professional in Healthcare Information and Management Systems (CPHIMS).
