

# Implementing a Secure Patient Portal at a Pediatric Hospital

**Jennifer Gillert**

Business Systems Analyst, Ambulatory & MyChart

**Dr. Jim King**

Pediatrician and CMIO

## Objectives

1. Overview of patient health portal: CHEO MyChart
2. Discuss MyChart implementation approach
3. Present initial results of MyChart access & lessons learned

**No Conflict of Interest to declare**

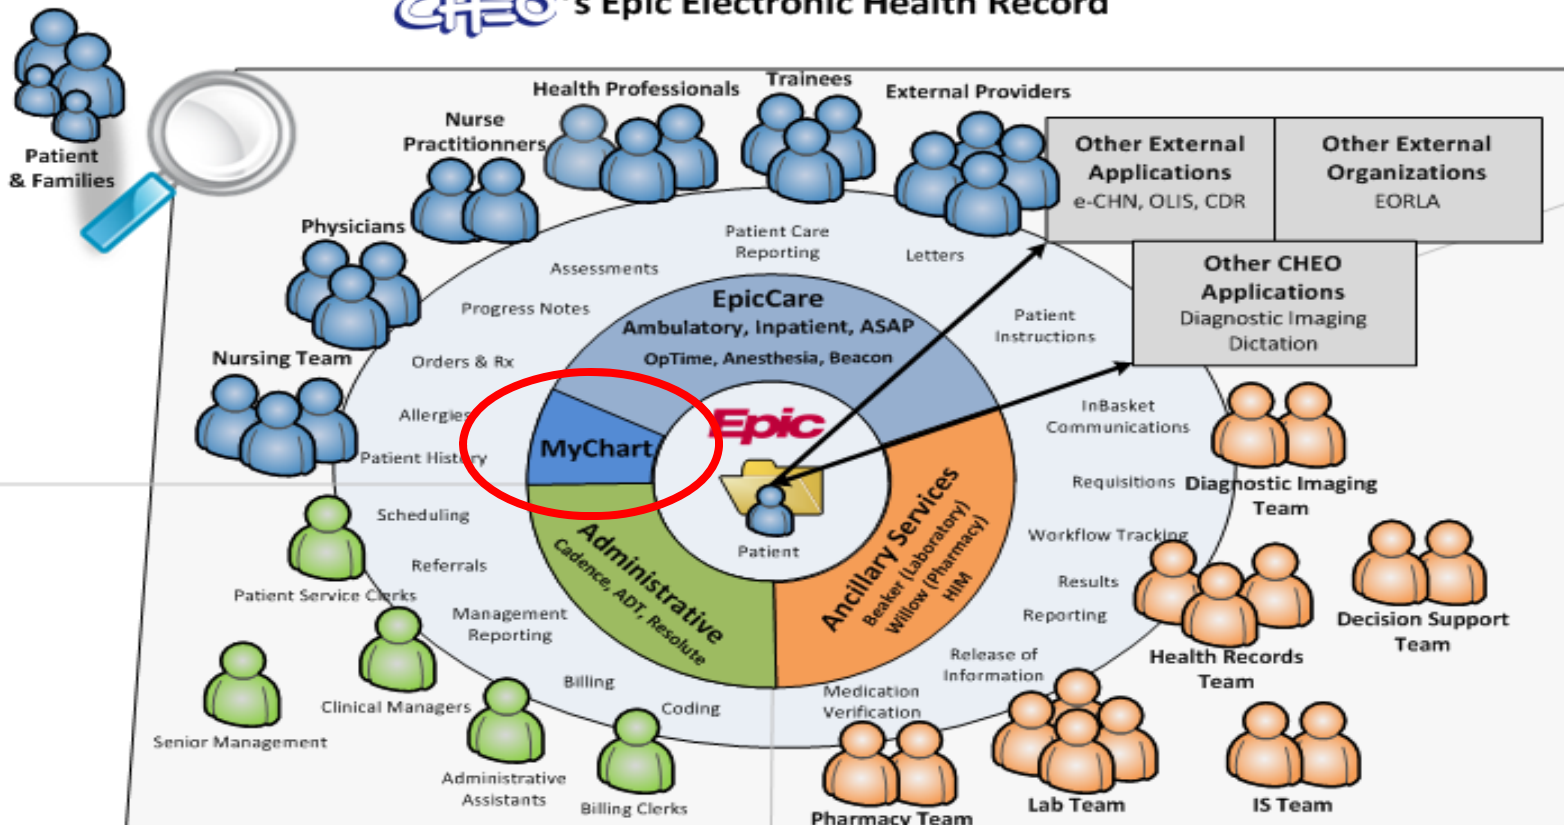

## Children's Hospital of Eastern Ontario

- 167 bed tertiary care hospital
- Referral Base: ~ 2 million
  - *194,000 outpatient visits to 63 specialty clinics*
  - *Regional trauma center and Level III NICU*
  - *Pediatric Care to Eastern Nunuvut*
- Enterprise Epic implementation
  - *EpicCare Ambulatory*
  - *Epic lab: Beaker*
  - *Patient Access and Revenue Cycle*
  - *Patient Health Portal*

### CHEO's Epic Electronic Health Record

## Benefits are being Realized

134 pt/proxy accessed their record through MyChart

Patients

BedBoard supporting patient flow

65,559 medication orders  
~ 1-2% rapid change/mo

Providers

1,059 unique users/mo  
accessed 331,180 records

> 1 million procedure orders  
(e.g. lab, DI)  
~ 1-2% duplicates/mo

System

> 1 million less lines of transcription in 2014

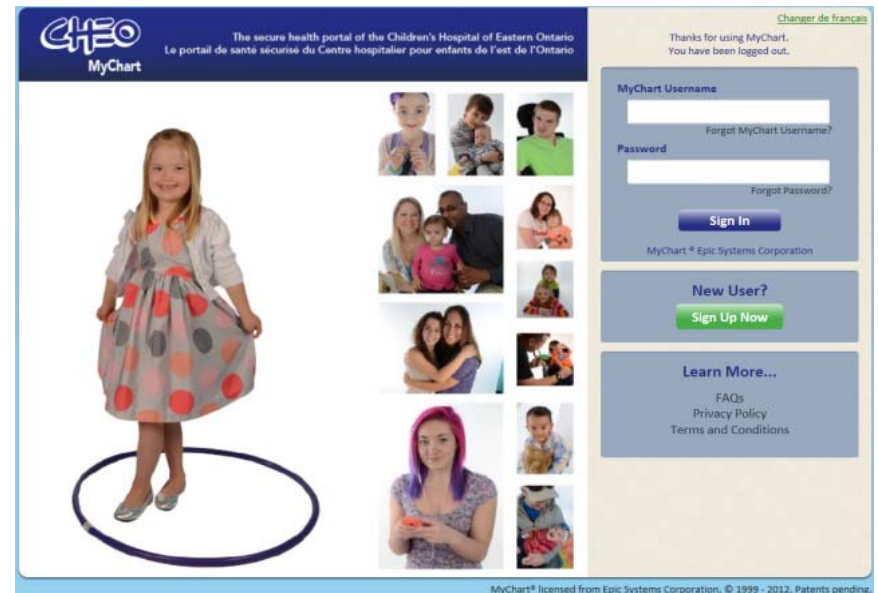

Up to date as of Apr, 2015

## MyChart @ CHEO

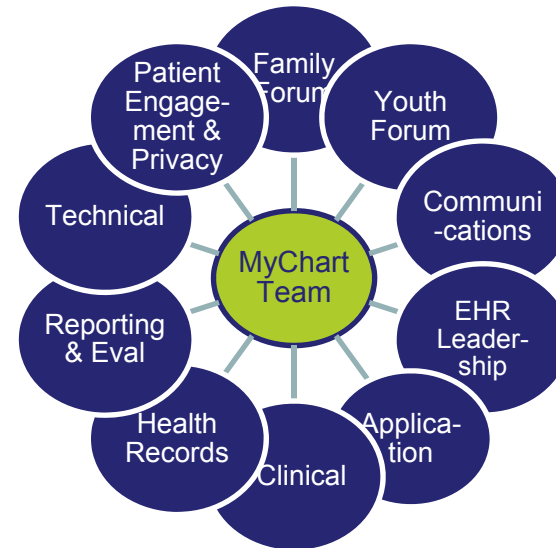

- Tethered PHR
  - *Patients & designated proxy*
- Features live today:
  - *Future & past visit information*
    - Reminders and After visit summary
  - *Health information including:*
    - Test Results (lab, imaging)
    - Allergies, Medications, Health Issues
    - Updates to health information by patient/proxies
  - *Growth Charts*
  - *Secure two-way messaging*

# MyChart Implementation

- Consumer & Clinician Engagement
  - *Canada Health Inforoute Change Management Framework*

## MyChart Implementation

- Consumer & Clinician Engagement
- Results Release

### Type of Result

Lab: Normal

Lab: Abnormal

Medical Imaging

Pathology & Cytology

### Automatic release

Next day

10 business days; not released Fri-Sun

10 business days; not released Fri-Sun

10 business days; not released Fri-Sun

### Not released

Sensitive Labs, Genetics

*e.g. HIV, pregnancy test*

Inpatient or ED Results

Specialty Procedures

*e.g. Audiology, Neurophysiology, Respiriology*

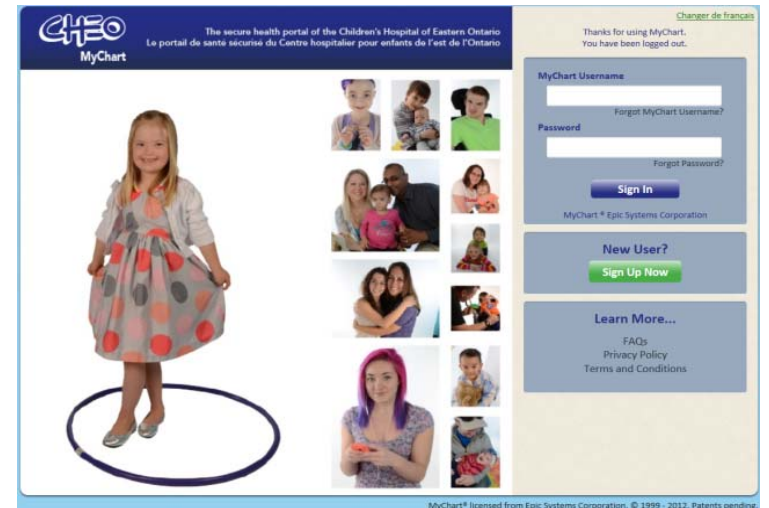

## MyChart Implementation

- Consumer & Clinician Engagement
- Results Release
- Privacy Decisions
  - *Privacy Impact Assessment*
  - *Access Request Form*
  - *Unique Identifying Information for Activation*
    - **Activation code, Date of Birth. Medical Record Number (MRN)**

## MyChart Implementation

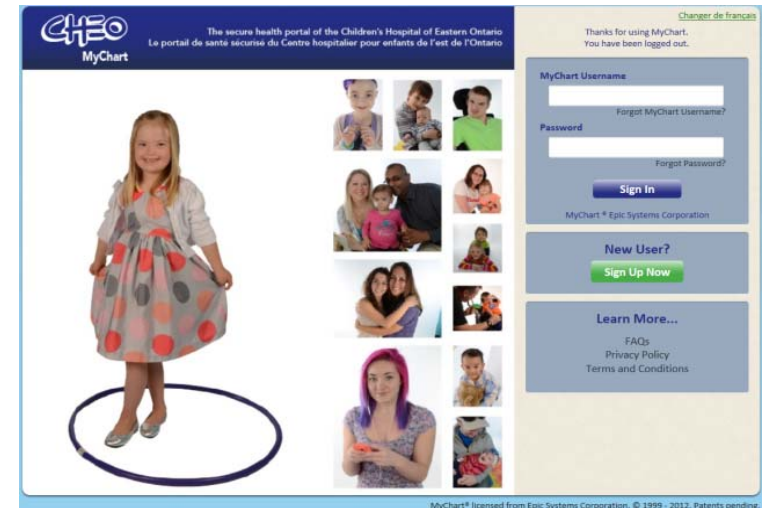

- Consumer & Clinician Engagement
- Results Release
- Privacy Decisions
- Activation Process
  - *Organizational workflow discussion*
  - *Processes to consider:*

### Deactivation

- Inappropriate Use
- Request for Deactivation by Patient
- Legal Update

### Transition ages

- Pediatrics
- 12, 16, 19

# MyChart @ CHEO

## Usage Results: Where are we now

### Pilot in Diabetes Clinic:

- 134 users; 980 logins

### Usage

- Page views: 5,633
  - 71 per user
- Lab tests (view list): 618
  - Result graphing: 107
- Appointments (view list): 339
- Medications: 293
- Growth Chart: 261

### Feature

### Hits

Feature	Hits
Proxy Access (View)	685
Lab Tests - View List	618
Messaging	443
Enter or Exit Proxy Page - Delegate	363
Lab Test - View Results	341
Future or Past Appointments - View List	339

## MyChart @ CHEO

### Pilot Feedback

- Pilot of System and Use Survey (eViews)
- 14 respondents
- Complete Survey in July

#### Computer Skills

- 92% have general or advanced skills

#### Gender

- 69% female; 23% males; 8% missing value

#### Age

- 77% between 35 to 49 years

#### Participant Type

- 11 proxies; 1 patient; 1 unknown

## MyChart @ CHEO

### Pilot Feedback: User Friendliness

85% of end users *strongly or moderately* agreed the registration process was easy.

92% *strongly or moderately* agreed the portal is easy to use.

92% *strongly or moderately* agreed they feel confident their personal information is secure and private.

16% *strongly or moderately* disagree that results were received in a timely fashion.

## MyChart @ CHEO

### Pilot Feedback: Access to Resources

In the past 12 months, end users have made telephone calls to the healthcare provider:

- Over 5 times (23%)
- 1-5 times (38%)
- None (31%)

15% *avoided* a phone call because of the access to health information electronically (38% not applicable).

69% *strongly or moderately* agreed that the portal makes it more convenient to get care or services.

## MyChart @ CHEO

### Pilot Feedback: Accuracy of Health Information

23% reported the medication information to *not be accurate.*

Medication on the list that is no longer used

Medication missing from the list

## MyChart @ CHEO

Pilot Feedback: Recommending to Family or Friends

77% of users would recommend MyChart to family or friends as a tool to support their health care

## Lessons Learned

- Technology piece – no problem
- Focus on organizational and process pieces
  - *Good change management framework*
  - *Stakeholder involvement*
- Pilot approach
- Operational ownership
  - *Patient engagement vs Business strategy*

## MyChart @ CHEO: Long Term

- Appointment requests & Self-scheduling
- Sharing notes with patients & families
- Patient questionnaires
  - Clinical & Research
- Video e-visit

 **Schedule an Appointment**

**Step 6: Choose date/time preferences**

Reason for visit: Office Visit

Note: You can schedule appointments from 9/17/2012 to 9/17/2013.

Please select a date range and any time or day of the week preferences to search for available times. If no boxes are selected, all dates and times will be used to search for an available appointment.

Schedule with: Suetmeier, John, MD (WI Harbor Bluff North Family Practice)  
Schedule at: WI HB North

Include members of care team when possible

Preferred dates: From: 9/17/2012  To: 9/21/2012 

Preferred times:	Monday	Tuesday	Wednesday	Thursday	Friday
Morning	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Afternoon	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
